## Flight Weather

Home

The kids can have their dreams about space-ships, but today's air is fast for adults.

At 7:30 Wednesday morning I was having a last-minute cup of coffee in Sarasota, Fla., drove my rent car 51 miles to Tampa International Airport, boarded a National DC-6 at 10 o'clock, was in New Orleans two hours later, laid over there 20 minutes, took off in a Braniff DC-3 and flew non-stop to Shreveport in 1 hour 24 minutes, picked up my own car at the hotel garage—and drove up to The Star office at 3:40 p.m.

Paul Jones told me I brought the rain with me Wednesday, but the fact is your 24-hour rain here was more or less local. The weather was clear on our takeoff at Tampa. Forty minutes out of New Orleans—about 120 miles, according to our 300 mph speed—we picked up some "weather," let down through the overcast and landed at New Orleans in a driving rain.

The flight to Shreveport was rough but the rain was hardly more than a drizzle, and the runway was little more than damp when we landed there. I got my car and started for Hope over dry highways.

But near Plain Dealing, La., I ran into rain and from there on home the roadside ditches showed you had a deluge.

The Hope-Shreveport road, Nos. 29-10, is a straight and fast highway, paved except for a 10-mile stretch just south of Lewisville, where traffic compelled to detour over 11½ miles of old 29. This was a bad road Wednesday, inches deep in mud and barely passable. But fresh gravel is being put down on the roadside and will be spread to keep the road in travel condition until the new section is paved next spring.

Two things stand out in my memory of this Florida roundtrip in air: The magnificence of our modern air terminal installations, particularly the ones at Tampa and Shreveport; and the number of old folks aboard the big airliners. The Tampa-New Orleans "Trade Wind" four-engine ship is sold out three days in advance, and half the passengers are old couples, going somewhere, or coming back.

## Local Club Youths Attend 4-H Congress

Hempstead County 4-H Club youths Evelyn Adams, Charles Beck and Annette Oliver are in Little Rock today and Saturday attending the Arkansas 4-H Club Congress.

Some 300 delegates from every county in Arkansas will be attending the 4-H Club Congress. Dr. John Tyler Caldwell, President of the University of Arkansas, and George Foster, Associate 4-H Leader, United States Department of Agriculture, will be the principle speakers.

The purpose of the congress is to recognize state and district 4-H achievement and leadership winners and the county champions. Forty-two state demonstration and county winners will receive special awards. Fourteen 4-H Clubs will be given state honor club certificates and two outstanding volunteer leaders will be awarded trips to National 4-H Congress at Chicago. They will accompany the Arkansas delegation, November 29 to December 3.

Registration for the congress began at 10:30 this morning, under the State Council of Home Demonstration Clubs. The 4-H members will take a tour of Little Rock under the sponsorship of the Arkansas Power and Light Company.

The Arkansas arm Bureau will be hosts at a recognition banquet for the 4-H champions Friday night. All delegates will be lodging guests of the Arkansas Economic Council-State Chamber of Commerce.

WASHINGTON (UPI)—President Eisenhower today ordered federal agencies to stop keeping unnecessary secrets so that American citizens may "know of what their government is doing."

The White House, after months of conferences with press and broadcasting representatives and officials of the government, issued a lengthy set of new rules to govern "classification" of federal information. Classification means putting secrecy labels on documents, messages, plans, weapon designs and such.

The President's new order, effective Dec. 15, has three primary provisions:

1. He stripped 28 federal agencies of the power to classify information.
2. He designated 17 agencies and departments, including five of cabinet status, in which authority to put a "secret" label on information would rest only in the hands of the department chief.
3. He abolished the bottom information classification of "restricted."

Attorney General Herbert Brownell, Jr., who pulled the information program together, said he was convinced the President's new plan was the best method of "attaining proper balance" between the need for safeguarding the government's defense and diplomatic secrets and "the need for keeping the citizens of a republic as fully informed as possible."

## Carnahan Named Hospital Chief

LITTLE ROCK (UPI)—Dr. Robert G. Carnahan yesterday was named acting superintendent of the Arkansas State Hospital.

His appointment was announced by the hospital's Board of Control. Carnahan, who was assistant superintendent, will replace Dr. Cleve C. Odum, who resigned.

The board also discharged two hospital employees and warned that further staff cuts may be necessary because of declining revenue.

Automobiles driven by Charlie Bush and Horace Williams sideswiped on North Main Street yesterday with both vehicles damaged considerably, according to investigating police.

The world has about 97 cities with more than half a million inhabitants.

## Ike Orders Less Secrecy in Agencies

By MERRIMAN SMITH

WASHINGTON (UPI)—President Eisenhower today ordered federal agencies to stop keeping unnecessary secrets so that American citizens may "know of what their government is doing."

His appointment was announced by the hospital's Board of Control. Carnahan, who was assistant superintendent, will replace Dr. Cleve C. Odum, who resigned.

The group which met here with Gov. Cherry, asked that the meeting date be changed from Nov. 12 to Nov. 16. It was learned yesterday that not all of the members would be available on the date set for the meeting.

The Army ordered the closing of the hospital on March 1. However, Rep. W. F. Norrell of Monticello said that further action on the order will be delayed until after the conference with the Army secretary.

Automobiles driven by Charlie Bush and Horace Williams sideswiped on North Main Street yesterday with both vehicles damaged considerably, according to investigating police.

HOT SPRINGS, Ark. - The major aim of American education is the development of high quality American citizens, a group of the Arkansas Education Association was told here today.

Miss Helen Heffernan of California State Department of Education told elementary school faculty: have less faith in facts and principles that "the big teacher 'Citizenship means more than it did 50 years ago,'" Miss Heffernan said.

"Then it meant only obeying the law; obeying the law is fine but it should mean much more, notably involvement and participation in the affairs which should concern all citizens."

Miss Heffernan reviewed the changes she said had taken place in American education in the last 50 years.

One change is that of broadened objectives; another is a change in the concept of discipline from something imposed on pupils to one of personality development.

Still a third is a change from mass education to individual education.

The speaker said that, "We have changed also in our confidence that we know what to teach and when to teach it."

## 129 Arrested in British Riots

By HAL COOPER

**LONDON** (UPI) — Thousands of celebrating students batted police for more than seven hours last night in one of the most riotous Guy Fawkes Nights this staid British capital has seen in many years.

More than 120 persons faced police charges as an aftermath of the wild outbreak in London's plush West End, climaxed by a march of 10,000 university students and other young folks on the Houses of Parliament.

In Piccadilly Circus, heart of London night life, 65 stalwart bobbies stood shoulder to shoulder

traffic circle. Climbing the statue of a favorite saint of celebrating Britons.

American newspapers used an estimated 553,889 tons of newspaper

for every man, woman and child in

the U. S.
